

Annuals

Starting in 2024 Applewood Nursery will have a full line of Annuals, Pots, Hanging Baskets, Herbs, and Veggies!!

There are too many to list...

Evergreens

North Star Spruce

***Picea glauca* 'North Star'**. Selected for its resilience to harsh winter conditions, compact *Picea glauca* 'North Star' produces a densely branched, classic pyramid that is covered with medium green needles. Its moderate growth rate and ultimate, intermediate size, together with superior hardiness make this introduction from Iseli Nursery ideal for use in larger, more exposed spaces, mixed borders and beds.

Full Sun

Zone 3

H 12', W 6'

Gotelli Weeping Serbian Spruce

***Picea omorika* 'Gotelli Weeping'**. Gotelli Weeping Spruce. This magnificent, formal tree adds height and drama to any garden. Its youthful, open form matures into a neat narrow spire with gracefully pendant branches and strictly weeping branchlets. It shares the lovely two-tone appearance with the species, and it tolerates heat and humidity better than most. This tree's beauty and weeping character increase with time and maturity.

Full Sun

Zone 4

H 25', W 15'

Silver Blue Serbian Spruce

***Picea omorika* 'Silberblue'**. Bright and bushy, this omorika has classic two-tone needles that display a bright silver-blue against a green interior. A wide spreading base supports a sweeping upright peak. Very attractive when planted in deep, rich, well-drained soil in full sun.

Full Sun

Zone 4

H 25', W 15'

Iseli® Blues Monty™ Spruce

***Picea pungens* 'INMoHoop'**. PP34,883. Iseli® Blues Monty™ Spruce. This bold new Iseli introduction unites the genetics of two outstanding parents, 'Montgomery' and 'Hoopsi'. 'Monty' has a classic conical Christmas tree shape with a strong leader as well as long, thin, bluest of blue needles. The small size and compact habit with shimmering frosty blue foliage makes this tree a versatile specimen for today's small landscapes.

H 8', W 6'

Evergreens

Purple Cone Spruce

Picea purpurea. Purple Cone Spruce. A wonderful and highly ornamental evergreen coniferous tree with a pyramidal form that can reach 50 feet tall in as many years, the Purple Cone Spruce features vivid violet-purple seed cones that contrast beautifully with the blue-green needles. This tough tree stands up to the cold (-30F), wind and snow, and thrives in average to even poor soils including clay. An undemanding, easy-to-grow and long-lived tree that makes for a great specimen.

Zone 4-7

H 30-50', W 15-25'

Chalet Swiss Stone Pine

Pinus cembra 'Chalet'. Chalet Swiss Stone Pine. A beautiful slow growing, dense, pyramidal pine with soft, long blue-green needles. Makes an ideal landscape specimen for the Northern tier of the US due to its superb cold hardiness.

Full Sun

Zone 3-7

H 10-12', W 4-5'

Iseli® TRUdwarf® White Bud Pine

Pinus mugo 'White Bud'. Iseli® TRUdwarf® White Bud Pine. In winter, this unique Iseli introduction shows off an exceptional seasonal trait. Cold weather brings a white resinous coating to each terminal bud, producing a dramatic frosty effect against the plant's dark green winter foliage. During the rest of the year, the reliably low, globe-shaped plant requires little care and maintains its small stature without candle pruning. Highly desirable for rock garden, entry or border.

Full Sun

Zone 2

H 3', W 4'

Louie White Pine

Pinus strobus 'Louie'. This exciting, new offering has long, thin, vibrant yellow needles that stay brightly colored year-round. Interior foliage that is shaded stays fresh green, so the yellow really stands out. Large, open and upright, the symmetrical pyramid, best planted in full sun, seems to reflect the rays of the sun back into the garden. Originated and introduced to the trade by Kate Brook Nursery, Vermont.

H 20', W 15'

Evergreens

Blue Korean Arborvitae

***Thuja koraiensis* 'Glauca'**. Blue Korean Arborvitae. Large flat sprays of dusty blue foliage with bright white stomatal bands on the undersides provide a unique color element for the landscape. The branches are scattered along the main trunk and droop in a random fashion, providing an open informal habit. Korean arborvitae is best in full sun but will appreciate some afternoon shade in hot climates. Moist, well-drained soil is preferable as it is intolerant of drought conditions.

Part Shade

Zone 4

H 20', W 15'

Iseli® Kelsoki Spire Arborvitae

***Thuja occidentalis* 'Kelsoki Spire'**. Iseli® Kelsoki Spire Arborvitae. Not your average arborvitae! The name is a mashup of Kelso Road, where the original seedling was found, and Hinoki cypress, which it resembles. This columnar conifer has scalloped fans of beautiful deep green summer foliage, but it thrives in colder climates a Hinoki won't tolerate. Its narrow shape, moderate growth rate, and ease of care make this elegant specimen a versatile addition to a multitude of landscapes. Use alone as a sculptural accent or group to create a utilitarian yet sophisticated screen.

First Editions® Tall Guy™ Arborvitae

***Thuja occidentalis* 'RutThu5'**. PP35,180. First Editions® Tall Guy™ Arborvitae. Selected by a First Editions® grower in 2017, Tall Guy™ is a moderate to fast growing upright, columnar arborvitae. A better plant in production and the landscape than Emerald, maturing quickly with a single liner and no gaps in the habit from multiple leaders. Like our other new Thuja introductions, Tall Guy™ was bred in Georgia and grows very well there. Happily, it doesn't mind cold winters surviving -33°F in Minnesota the winter of January 2019 without any winter burn. The same winter damaged other selections of *Thuja occidentalis*, some severely. Resistant to Passalora/Cercospora needle blight. Bred by Dr. John Ruter at the University of Georgia.

H 8-12', W 2-3'

Proven Winners® Tater Tot® Arborvitae

***Thuja occidentalis* 'SMNTOBAB'**. PP30,761 CBRAF. Proven Winners® Tater Tot® Arborvitae. Tater Tot® arborvitae is the perfect plant accessory for your landscape - its neat, rounded shape is ideal for sprucing up any space in your yard! It naturally grows as a tidy little globe of fragrant, fan-like evergreen foliage. It's quite tolerant of shade, too, so you can plant it just about anywhere and enjoy year-round beauty from this easy care native shrub.

H 2-3', W 3-4'

Evergreens

Proven Winners® Thin Man® Arborvitae

Thuja occidentalis 'SMTOTM'. PP25,672. Proven Winners® Thin Man® Arborvitae. Full Speed A Hedge® Thin Man® arborvitae is the super-skinny, fast-growing arborvitae! It's the perfect choice for screens and privacy hedges where ground space is at a premium. Despite its extremely narrow, columnar habit, it still has a fast growth rate so you can get the privacy you need quickly. Holds its winter color very well.

Fruits

Red Lake Currant

Ribes rubrum 'Red Lake'. Red Currant. Large and juicy red berries have an intense flavor ideal for making preserves. Red berries although tart, can be eaten fresh picked and are attractive to birds. With showy, bright red fruits and aromatic leaves, vigorous bushes make attractive hedges in the garden.

Full Sun

Zone 3

H 3-5', W 3-5'

First Editions® Tawara Asian Pear

Pyrus 'Tawara Oriental'. First Editions® Tawara Asian Pear. Tawara asian pear is grown mainly for its edible fruit, but with an upright oval form with flossy green foliage it is good looking all season long. White flowers in spring make way to the unusual dark tan to light brown fruit. The fruit tastes like a cross between apple and pear and has a crisp texture. Also excellent for fresh eating or canning.

Class Act Sedum

Sedum 'Class Act'. PP20,125. Class Act Sedum. What's classier than winning a Royal Horticultural Society Award of Garden Merit? Not much! This plant did exactly that against more than 50 others by impressing the judges with its compact, upright habit and full heads of the most stunning rose-pink flowers. A winner in the garden and in the beds!

Shrubs

Proven Winners® Simply Scentsational® Sweetshrub

***Calycanthus floridus* 'SMNCAF'**. PP33,550 CBRAF. Proven Winners® Simply Scentsational® Sweetshrub. Smelling this plant is simply addictive! Dark red flowers are deliciously fragrant, with notes of melon, banana, strawberry, and Juicyfruit gum. It took about 18 years of sniffing thousands of blooms to develop this plant, but it was worth the effort. Serves as the best natural car freshener - it's even fragrant when it's wilted!

Proven Winners® Sgt. Pepper™ Dogwood

***Cornus alba* 'Verpaalen2'**. PP34,377 CBRAF. Proven Winners® Sgt. Pepper™ Dogwood. Already extensively recognized and decorated in Europe, this shrubby dogwood offers variegated foliage that changes color throughout the year. In spring, the leaves flush out bright pink, but soon change to green with a cream-colored margin. Come fall, the leaves begin to resemble a tricolor beech as they develop pink and red tints that intensify as the evenings cool. In the winter, you get a striking display of red colored stems.

Shrubs

Proven Winners® Puffer Fish® Hydrangea

Hydrangea paniculata 'NCHP1'. PP34,316 CBRAF. Proven Winners® Puffer Fish® Hydrangea. Think of Puffer Fish hydrangea as a larger, more puffed up Bobo® hydrangea, with fluffy white blooms that engulf the entire plant, nearly obscuring the foliage. The flowers open and mature to a pure white. As the blooms age, they turn lime green and, for a bit of surprise, a fresh sprig of white flowers emerges from the tip of the panicle. A tight, compact habit with stems strong enough to hold its blooms. This NCSU hydrangea has all the talent needed to be a first-class landscape performer.

Proven Winners® FLAVORETTE™ Honey-Apricot Rose

Rosa 'Boznatafra'. Proven Winners® FLAVORETTE™ Honey-Apricot Rose. Why plant a rose that merely looks beautiful when you can plant one that tastes beautiful as well? Flavorette Honey-Apricot rose was selected not just for its lush, full flowers and vigorous growth, but also for the sensuous texture and sweet, fruity flavor of its petals. Their taste and fragrance hint at both ripe apricots and warm honey, creating a sensory experience that begins in the garden and continues to the vase, kitchen, and table.

Proven Winners® Bloomerang® Purpink™ Lilac

Syringa x pubescens 'SMNSPTP'. PPAF CBRAF. Proven Winners® Bloomerang® Purpink™ Lilac. Do you remember the viral internet phenomenon of The Dress? The one where everyone was split between which color it actually was? That's kind of what you get with this lilac. Sometimes it's purple, and sometimes it's pink, sometimes it's a bit of both. Whatever color you think it is at the particular moment, it is unquestionable one of the most prolific rebloomers in the Bloomerang series.

Dream Cloud™ Lilac

Syringa patula 'KLMone'. Dream Cloud™ Lilac. This dense-growing Manchurian lilac is destined for the clouds! A different color than the species, in early summer you'll find Dream Cloud™ covered in fluffy panicles of pink flowers – so much so that there's hardly a trace of the leaves to be seen. A spectacular sight to see, these blooms measure 12" long x 9" wide! As summer wanes, cooler nights produce a rich, purple, fall color – yet another nuance that adds one more season of interest. This plant is truly a winner: more resistant to powdery mildew and root rot diseases than other lilacs on the market. Prune immediately after flowering has finished giving time for next year's buds to set.

Trees

Pink Sparkles® Crabapple

Malus 'Malusquest'. Pink Sparkles® Crabapple. Covered in masses of bright crimson buds that open to a warm pink blush, Pink Sparkles® Crabapple is a cross between Red Jewel® and Prairifire. The cherry-red fruit that follows matures to a deep wine color in the late fall and persists till spring. The form is upright and compact, becoming pyramidal with age. This crabapple shows good resistance to apple scab, apple mildew, fireblight, and cedar-apple rust. Use as a specimen or plant in groups.
